

Winners announced for 2011 KABV Victoria Sustainable Cities and Clean Beaches Awards

3rd August 2011

KABV congratulates all participants, finalists and winners for this year's KABV Sustainable Cities and Clean Beaches Awards.

The **City of Yarra** and **Frankston Foreshore** cleaned up at the 2011 Keep Australia Beautiful Victoria's Sustainable Cities and Clean Beaches Awards on Friday night.

The Minister for Environment and Climate Change, the Hon Ryan Smith, presented the awards congratulating **Yarra City Council** for winning Sustainable City of the Year and **Frankston Foreshore** for taking out the Clean Beach of the Year.

The City of Yarra immersed itself in community-based initiatives to reduce their environmental impact and make inner-city living sustainable, while Frankston City Council has continued to protect and enhance the Frankston Foreshore.

A highlight of the night was the awarding of the prestigious Dame Phyllis Frost Award to Topsy Nevett from Keep Ballarat Beautiful, and Kathleen Hassell from the Frankston Beach Association, for their outstanding commitment to the environment in their communities.

KABV would like to thank every community that entered the Awards, demonstrating that everyday actions can make a difference to our environment.
