Capel Sound Foreshores, VIC, wins Protection of the Environment category at the Australian Clean Beaches Awards 2009

Capel Sound Foreshores in Rosebud, VIC, was announced the winner of the Protection of the Environment category award at the annual Keep Australia Beautiful Clean Beaches Awards, held in Townsville today.

According to Australian Clean Beaches Judge and Coastalwatch representative, Chris Tola, Capel Sound Foreshores features wonderfully restored native habitat, together with excellent public facilities and beach access.

"The Foreshores' Management Committee have developed strong relationships with Melbourne Water, the Department of Sustainability and the Environment, local TAFE and primary and secondary schools, and businesses to help secure staff and volunteers for the area. There is also a strong Coastal Management Plan in place to help protect and preserve the local coastline.

"In particular, the 'Norm's Play Area' is thoroughly impressive. The Committee have helped restore many hectares of degraded park area into virtually pristine habitat for the Swamp Skink and Swamp Rat through extensive weed eradication.

"The active Coast Action group assists with dune rehabilitation and is backed up by an active WaterWatch Team, who undertake bi monthly testing in the local waterways.

"It is obvious that these actions have encouraged shared ownership in the area evidenced by no graffiti and well maintained and cared for facilities", Tola added.

Through the Australian Clean Beaches Awards, Keep Australia Beautiful is able to recognise local community and individual efforts that are helping coastal areas to become environmentally, economically and socially sustainable communities.

The awards are sponsored by Mount Franklin Spring Water, Remondis Waste Solutions and Coastalwatch.

North Steyne Beach in Manly, NSW, was named Australia's Cleanest Beach for 2009.
