

With Grundfos you are in the hands of professionals who have:

- > The know how
- > The solutions
- > The backup.

Our professional Dealer network can provide you with specialist advice for all your pumping applications, from inception to implementation, and ensure your system is energy saving and environmentally friendly.

To find your nearest Authorised Dealer, visit www.grundfos.com.au

Contact your local authorised Grundfos Dealer today

Grundfos are committed to spreading the water conservation message and proudly sponsor the Water Conservation Category of the Keep Australia Beautiful Tidy Towns & Sustainable Cities Awards.

For purchases of Grundfos product over \$1,000 (ex. GST) we are pleased to offer your club a \$500 voucher (redeemable for Grundfos product) to be used at your next fundraising event and a fun 'nipper pack' for each of your club's nippers.

To redeem, simply send a copy of your invoice to:
 The Marketing Department
 Grundfos Pumps Pty Ltd
 Private Box 2040
 Regency Park SA 5942

How much water can your club save?

For over 25 years the Grundfos range has allowed Australians to select from pumps and pumping systems for a wide range of applications across the entire water life cycle.

Grundfos offers sustainable quality pumping solutions to meet all the mains and rainwater needs for your club.

Government Grants available to SLSCs

Save water today and make use of the Government Grants available to change the way your club uses water.

As part of the Water for the Future plan, the Australian Government is providing grants to surf life saving clubs of up to \$10,000 to install water saving and water efficient devices.

The grants can be claimed for the installation of new rainwater tanks connected to club premises, including the installation of pumps for the new tank.

It's easy to apply...

- 1 Obtain at least 2 quotes for the work you propose from Authorised Grundfos Dealers.
- 2 Complete an application form and submit to SLSA with quotes attached.
- 3 Once approved, 50% of the grant will be paid. Proceed with purchase and installation of your system.
- 4 Once installed, complete and submit a completion report. Once approved, the balance of the grant will be paid.
